PALLET MANAGEMENT SYSTEMS. . . YOUR SYSTEM FOR THE FUTURE

A NASDAQ Market Company
NASDAQ/BB: PALT

NWPCA, The Pallet Association

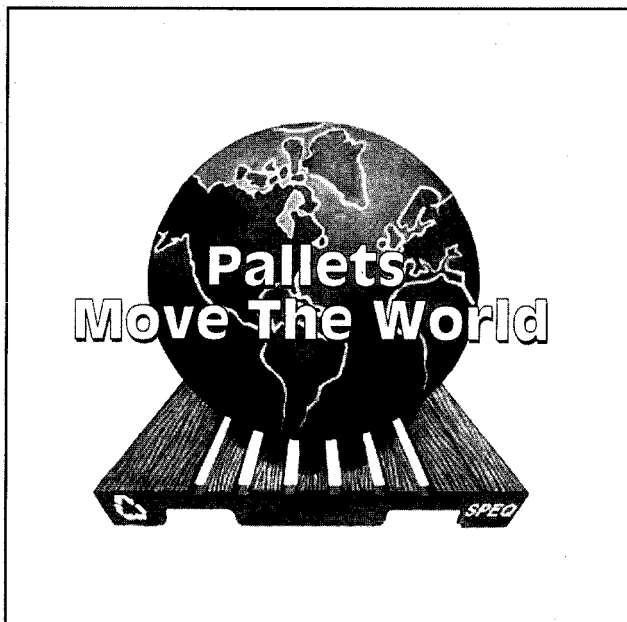

1995-1996 Buyer's Guide

NWPCA, the Pallet Association, is the largest international association representing the pallet industry. The membership includes pallet manufacturers, recyclers/repairers, distributors, brokers, sawmills, component manufacturers, and manufacturers of pallet machinery.

The Pallet Association's Buyer's Guide provides pallet users with a reliable source of information on each member's products and capabilities.

The primary listing, pages 3 - 55, is organized by state (pages 3-48) and country (pages 4-55). Members are listed alphabetically by company name. The index, beginning on page 57, is arranged alphabetically by company name.

For additional information about the Pallet Association, contact the association office in Arlington, VA.

Vicfam Hygiene Pallet. Bacteria Free, Hygienic, And At A Price To Suit Your Pallet.

If they weren't, you would be buying a pallet prone to bacteria infection, and that wouldn't be good for business. Your's or our's.

When it comes to a pallet for the food and pharmaceutical industry, Vicfam's 'HYGIENE' Pallet is hard to beat.

Not only does it offer total hygiene protection by eliminating crevices where bacteria or foreign matter may collect, but cleaning is a breeze as the 'HYGIENE' Pallet can be steam cleaned or chemically sterilized.

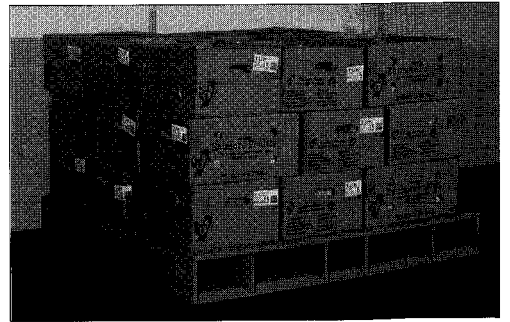

Fully molded in a one piece construction with a solid molded top deck, it features a unique anti-slip surface and has a very high chemical resistance factor.

To the best of our knowledge, the Vicfam 'HYGIENE' Pallet is the only fully molded, one piece plastic pallet that is truly hygienic.

Manufactured from 100% post consumer plastic, it is totally recyclable.

And if all of this isn't a good enough reason to choose our pallet, here are some other features that make good business sense:

- Fits standard and drive-in pallet racking
- Accepts all sizes of pallet trolleys
- Chamfered leading edge for pallet trolleys.
- Four way fork lift entry
- Safe working load in excess of 3000 pounds and more than 4 times (13,000 pounds) the SWL in static storage
- Color to customer choice, subject to volume and small surcharge
- Processed in excess of 250 degrees Celsius, thus eliminating any possibility of contamination
- Totally inert raw material
- Standard pallet size approx. 46"x46" and weighs only 70 pounds. Other sizes 48"x40" and 48"x32" also available.

Vicfam Plastics Recycling
