NCSU • Box 7401 • Raleigh, NC 27695 • (919) 515-3480 • Toll Free 1-800-33-NC SUN

Information Resources for Conservation and Renewable Energy

The purpose of this factsheet is to provide additional resources for conservation and renewable energy information. Listed below each entry is a short summary of the target clients, services provided, energy types covered, and type of information available (see key below). Contact the organization for a more complete listing of available resources.

Clients: Consumers (C); Industry (I); Professionals (P); Educators (E); Researchers (R); Media (M); Government (G); and Non-Governmental Organizations (N).

Services: Technical Assistance (TA); Information Distribution (ID); Information Publication (IP); Training Workshops (TW); Seminars and Briefings (SB); Conferences (CF); Lobbying (LB); and Research (RS).

Energy Types: Passive Solar, Active Solar, Photovoltaics, Wind, Hydro, Biomass, Geothermal, Hydrogen, Alternative Fuels, Energy Conservation, Energy Efficiency, Energy Storage, Building Technology and Electric Vehicles.

Information Types: Verbal (VB); Books (BK); Factsheets (FS); Technical Papers (TP); Reports (RP); Guides (GD); Newsletters (NL); Magazines (MG); Videos (VD); Multimedia (MM); Internet (IT); and Databases (DB).
