

## Household Hazardous Waste Project RESOURCES

- *Missouri Storm Drain Stenciling Project* is a project that involves stenciling storm drains with the message "Dump No Waste, Drains to Stream" and includes a litter clean-up and a community education campaign. Free Storm Drain Stenciling Kits are available to qualified Missouri organizations.

- *Lessons In Household Hazardous Waste Management for Teachers: Grades K-3 and Grades 4-8* are two booklets that contain activities related to household hazardous product identification, safe storage and use, health and environmental effects, proper management, and source reduction. The booklets include Missouri Mastery and Achievement Test coding sheets.

- *Guide to Hazardous Products Around the Home* is a comprehensive handbook that explains product ingredients, health and safety issues, disposal, recycling outlets and safer product alternatives.

- *Tools for the Environmental Teacher* is an annotated bibliography of household hazardous waste educational materials and curricula from the United States and Canada for grades K-12. Each listing contains a description, grade level, contact person, address, phone number and cost.

*Guide Sheet Series:* These guide sheets answer commonly asked questions about household hazardous products and provide guidelines for safe use, storage and disposal. Titles include:

- *Household Hazardous Products Consumer Information*
- *Managing Household Hazardous Wastes*
- *Material Safety Data Sheets: Identifying Product Hazards*
- *Safe Use, Storage and Disposal of Paint*
- *Safe Use, Storage and Disposal of Pesticides*
- *Selecting Household Safety Equipment*
- *Store Hazardous Products Safely*
- *Storm Drains and Water Quality*
- *Stored Waste Abatement Program: SWAP*

*Technical Bulletins:* These bulletins provide regulatory, technical and management information. The regulatory information is specific to Missouri.

- *Setting Up a Used Oil Collection Site*
- *Setting Up a Used Antifreeze Collection Site*
