

APPENDIX 129C3

**VERY SMALL MUNICIPAL WASTE COMBUSTORS
(MWC Plants < 35 tons per day capacity)**

**NEW SOURCE PERFORMANCE STANDARDS
(Prerule Stage)**

**EXISTING SOURCE EMISSION GUIDELINES
(Prerule Stage)**

**CAA SECTION 129
SOLID WASTE COMBUSTION STANDARDS**

VERY SMALL MUNICIPAL WASTE COMBUSTOR RULES

REGULATION STATUS

The 1990 Clean Air Act amendments required EPA to establish emission standards for existing and new municipal waste combustors (MWCs). EPA will eventually issue standards for very small MWC plants (<35 tons per day capacity). For the latest status refer to the combustion related rules page on EPA's Unified Air Toxic Website at <http://www.epa.gov/ttn/uatw/combust/list.html>.

Background

Refer to Appendix 129C2 and Appendix 129E for background on the standards for small and very small MWCs.
